## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments see Applicant's Arguments and Remarks, filed 12/26/2007, with respect to claims 1-19 have been fully considered and are persuasive. The rejections of claims 1-19 have been withdrawn.

### ***Allowable Subject Matter***

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record teach forms of arcuate components and some teach components with tongue and groove coupling means (see Akmese (US 4873796)). However, the prior art of record fails to teach the arcuate components arranged in such a way as to have an inner and outer board with tiles in between forming a four-sided, tongue and groove coupled structure. Laronde (US 5987845) illustrates an arcuate structure formed with boards that are coupled via tongue and grooves; however they are attached to one another, no arcuate tiles. Marocco (US 5699637) teaches a flexible arch frame coupled via tongue and groove, however again the connection to tile members is not taught.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
